THE METHODIST CHURCH PROPERTY Case.—The Methodist Book concern in this city, and the agency of the church, South, established at Richmond, Va. have jointly published a full report of the arguments in the property suit tried in May last, before the United States Circuit Court for the Southern district of New York. It makes a handsome octave volume of nearly four hundred pages, and is the production of Mr. R. Sutton the well known Congressional reporter, the accuracy and perfect fullness of whose reports are proverbial,-The present volume will, if possible, add to Mr. Sutton's reputation. It is a verbatim report of what was raid, quoted, or referred to, on the trial, and will remaines a menorial to the Methodist Church both North and South, of an event in their joint bictery, which, though the members of the Church generally deplote its occurrence, yet it having taken place, every. Methodist must be glad to have the proceeding put upon record, in a form which both parties! to the suit have admitted to the correct. The volume, we believe, is to be cold contains much matter-on the supposition that almost every member of the Church will desire to possess an faithful a report of the arguments on both sides of the important case .- Com. > Obituary.-Died, on his passage from Havana to New York, a few days since, Edward Spidling, Esq, of the firm of Story & Spalding of the former city. Mr. Spalding was a native of Plainfield, Conn. He cause to this town when a youth, and served his brother Henry, as a clerk. On the death of his brother, or soon after, he entered, as a clerk, the countinghouse of the late Mr. Bubbitt, then extensively engaged in commerce. and became connected with him in business. But his health having declined, and finding himself seriously threatened with pulmonary affections, to which his family had been constitutionally inclined. and which had already swept them oil to the grave he sought to evade the disease, by a residence in a milder cli mate. In this he succeeded so far as to protract lieuseful life, for a quarter of century. But death has overtaken him, and deprived his acquantances of whom he had many here, of a sincere, warm hearted friend; and our shippers, who have occasion to transact business with his house, of a correct and upright commission merchant. Though all his near family connections have gone before him to the tomb, he leaves many among us, who will deeply regret his death and long cherish his memory.-

The French Government has voted a credit of 33,000 france for the purpose of exploring the Temple of Sarapis, in the ruins of Memphis. This temple, which has been covered with sand ever since the time of Strabe, and has since remained almost intent, offers great 1:mptations to research. The building is a mixture of the Greek and Emption styles of architecture, and the wership to which it was consecrated was a fusion of the Greek and the Egyptian faith. The very slight soundings in the sand which have been hitherto made, have brought to light curious statues and bas-reliefs, and, amongst other things, valuable portraits of Greek philosophers.
